

UTTAM KUMAR SIRMOUR

B.Tech – Industrial & Production Engineering | Government Engineering College, Jabalpur (Final Year 2026)

soniuttamkumar747@gmail.com • Bangalore, HSR Layout • github.com/Uttam7898 • linkedin.com/in/uttam-kumar-sirmour-5aa93a298 • Full-Stack Developer

CAREER OBJECTIVE

Enthusiastic final-year Engineering student with hands-on experience in Python, React.js, Node.js, PostgreSQL/MySQL, and cloud-based development. Completed 2 remote internships building and deploying full-stack AI applications with CI/CD and AWS. Strong analytical, problem-solving, and communication skills with an eagerness to learn new technologies, SDLC best practices, and contribute to high-quality software solutions at Deloitte.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, C++, HTML5, CSS3

Frontend: React.js, Vite — responsive UI components, SPA, state management, routing

Backend: Node.js, Express.js, Django (fundamentals) — REST API, JWT auth, middleware, MVC, SDLC practices

Database: MongoDB Atlas (NoSQL), PostgreSQL, MySQL — schema design, CRUD, data storage & retrieval

Cloud & DevOps: AWS (EC2, S3, IAM), CI/CD pipelines, GitHub Actions, Vercel — cloud-based app deployment

AI Integration: Groq API (LLaMA 3.3), LLM-powered feature development

Prompt Engineering: System prompt design, few-shot prompting, chain-of-thought, context window optimization

AI Tools: Cursor AI, Claude AI, ChatGPT, GitHub Copilot, Replit AI, Lovable, n8n, Supabase, MCP Servers, Postman AI, AntiGravity

Other: OOP, Agile/Scrum, software testing & debugging, documentation, code reviews, Multer, Puppeteer

INTERNSHIP EXPERIENCE

Web Development Intern (Remote) [Unlox](#) 2024

- Assisted in application development and code reviews using React.js and Node.js in an Agile team environment.
- Set up CI/CD pipelines (GitHub Actions) and integrated AWS S3 and EC2 for cloud-based deployment.
- Participated in technical discussions, sprint planning, and documentation of software enhancements.
- Followed software development best practices, coding standards, and SDLC processes throughout the internship.

Full-Stack Developer Intern (Remote) [Yugayatra RetailOPC Pvt. Ltd.](#) 2024

- Developed and implemented functional requirements for a 10-minute food delivery app using Python, Node.js, and React.js.
- Worked with PostgreSQL and MySQL for data storage and retrieval of orders, users, and delivery tracking.
- Built and enhanced responsive UI components using React.js; integrated LLM AI for smart menu recommendations.
- Deployed on AWS EC2 with S3 storage; participated in software testing, debugging, and bug-fixing activities.

PROJECTS — Progression to Production-Grade AI Apps

① **CodeLens AI – AI Code Reviewer** [React, Node.js, Vite, Python, Groq LLaMA 3.3](#) github.com/Uttam7898/ai-code-reviewer

- Built AI-powered code review tool; applied prompt engineering for structured, readable feedback output.
- Independently debugged Vite routing, CORS errors, and API integration — demonstrating strong problem-solving skills.

② **AI Interview Report Generator** [React, Node.js, MongoDB, PostgreSQL, JWT, Puppeteer, Multer, Groq LLaMA 3.3](#) *Deployed – Vercel + AWS*

- Implemented functional requirements end-to-end: JWT auth, file uploads, PDF generation, and AI report structuring via few-shot prompting.
- Followed SDLC best practices — version control, testing, debugging, documentation, and secure env variable management.
- Deployed with Vercel CI/CD auto-deploy pipeline; handled a real security incident by rewriting git history to remove an exposed API key.

HACKATHONS & COMPETITIVE PROGRAMMING

- Actively participated in multiple national-level hackathons including HackerEarth – Tata Steel AI Hackathon and various college & online coding competitions.
- Built and presented working prototypes under tight deadlines — strengthening rapid development, teamwork, and technical communication skills.
- Solved 200+ DSA problems in C++ and Python (LeetCode) — arrays, hash maps, sliding window, two pointers, recursion, demonstrating strong analytical and problem-solving skills.

EDUCATION

B.Tech – Industrial & Production Engineering | GEC Jabalpur | 2022–2026 | Self-taught Python, full-stack & cloud dev alongside degree; shipped 2 live AI apps + 2 remote internships.

ADDITIONAL

Leadership: Coding Club Coordinator, GEC Jabalpur — led 30+ members, organized events for 200+ students • **Soft Skills:** Strong written & oral communication, team collaboration, eagerness to learn, analytical thinking
